"So that the People May Live"

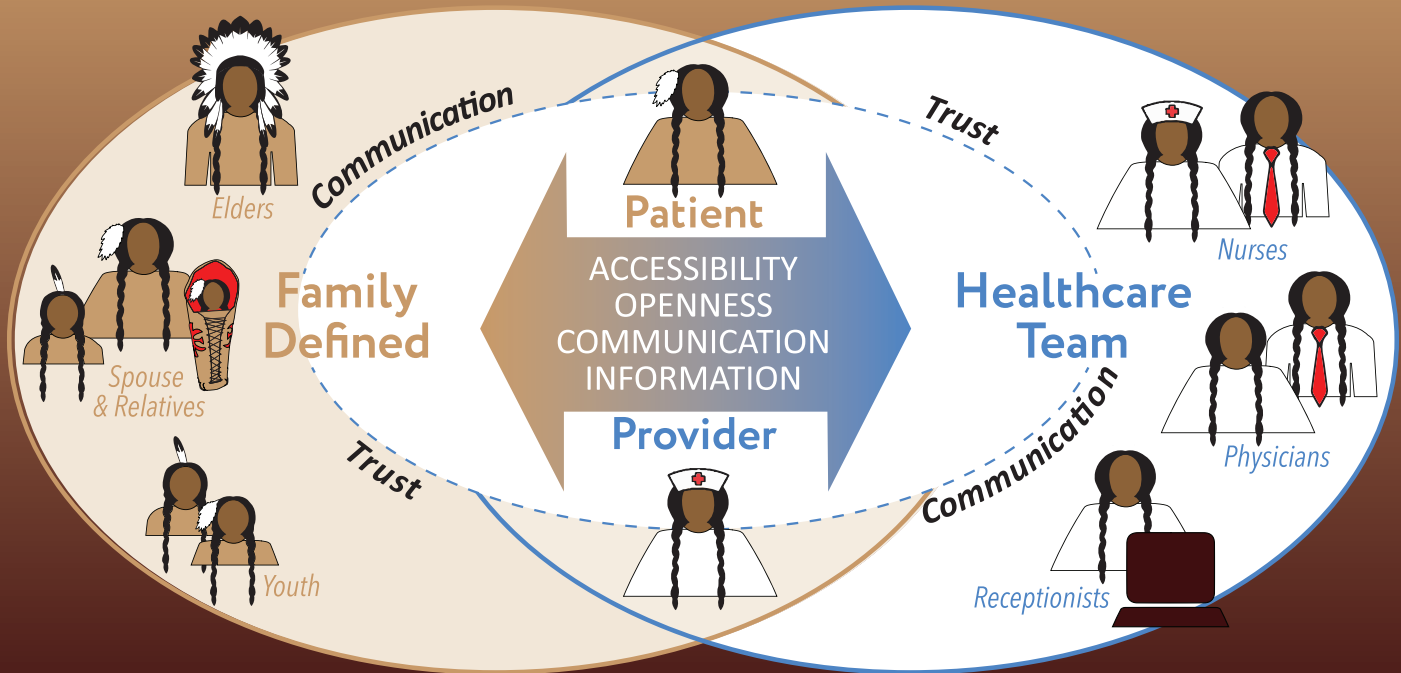

Team Based Care

Getting the extended family, involved in our health. Our community, our health.

What is the best way to practice sovereignty with our health?

Everyone can be involved in advocating health. The health of our elders, children and our people is the responsibility of the entire nation. Engage with doctors, nurses and health care professionals to make sure you are healthy. Everyone has a responsibility to speak up for better care and a better team equals better health. Being active in our health starts with being involved in health care decisions.
